

EARTHLITE®

World's #1 Brand in Massage™

Introducing the exciting, new

Earthlite Infinity™ Massage Table

... style meets performance.

Curves. Sleek, stylish, elegant curves. Comfort beyond imagination. Strength beyond compare. That's what the Infinity table is all about. We've combined the finest workmanship and materials with an innovative, new hoop construction to bring you the ultimate in strength, stability, and style.

Shown with Reiki Option

The Infinity Massage table incorporates the following features:

- **Beautiful and Functional Infinity™ Shape** – Wide, where a table should be wide (32" in the shoulder area). Narrow, where a table should be narrow (28" in the middle for better client access). Sweeping rounded corners soften both the table's look and the impact on the therapist.
- **Innovative, New Hoop Construction** – We used graphic artists, computer load analysis, and structural engineers to bring you this beautiful new design, in which we've eliminated the four corner joints and added strength and stability. The new Infinity hoop construction utilizes a shapeable 10-ply laminated hardwood, which is strong, stable and beautiful.
- **Super-strong Infinity endplate** – Thicker and stronger than the previous industry standard, our new Infinity endplates bring greater stability and style without adding weight.
- **Most Comfortable Pro-Plush™ Cushioning System Ever** – The feel of our 3 layer 3" Pro-Plush™ Deluxe cushioning system takes comfort to a new level. And, without adding significant weight to the table. Our four layer system adds a firm base level to prevent "bottoming out," and two top layers, which combine to provide exceptional comfort and luxurious feel.
- **Luxurious Natursoft® Vinyl** – 100% environmentally friendly PU vinyl that is so soft that it has to be felt to be believed.
- **Infinity LT edition** – The LT edition is a more compact, lighter edition of the Infinity. The LT utilizes a specially designed headrest extension to economize on the length of the table while still enabling the therapist to treat his/her tallest clients. The Infinity LT weighs a mere 29 lbs and is easily transported and stored.
- **Highest Quality** – Constructed by Earthlite's master craftsmen in Vista, CA.

The Earthlite Infinity Massage Table: A new experience in design, stability and comfort.
