

# EARTHlite

World's #1 Brand in Massage™

## Introducing the new and improved Earthlite Spirit™ Massage Table ...the industry standard goes upscale.

For three decades, our flagship model, the Spirit, has been the first choice of professional massage therapists. That's why we took great care to improve and update this industry standard without losing the workmanship, quality and performance that our professional massage therapists have come to expect from the Spirit.

Our exciting, New Spirit design incorporates the following features:

- Beautiful Rounded Corner Frame Design** – Smooth, beautiful curves. No more sharp corners. The new Spirit incorporates our proprietary 10 layer laminate hoop design, which eliminates weak joints and sharp corners.
- New Pro-Plush™ Cushioning Systems** – Most Comfortable Ever – The feel of our 3 layer Pro-Plush® and Pro-Plush® Deluxe cushioning systems takes comfort to a new level. And, without adding significant weight to the table. Our three layer system adds a firm base level to prevent “bottoming out,” and two top layers, which combine to provide exceptional comfort and luxurious feel.
- New Luxurious Natursoft® Vinyl** – 100% environmentally friendly PU vinyl that is so soft that it has to be felt to be believed. It's now standard on our Spirit table line using our Stitched-Fit™ upholstery method for a flatter massage surface.
- New Super-strong Spirit Endplate** – Thicker and stronger than the previous industry standard, our New Spirit endplate brings greater stability and style without adding weight. *Also available with Reiki endplates.*
- All the Bells and Whistles** – High quality maple hardwood, wooden outlets, shiatsu release cables, reinforcing ribs, reiki endplate option. They're all included—at no additional cost.
- Highest Quality** – Constructed by Earthlite's master craftsmen in Vista, CA.
